PROJECTS

- Simple Calculator**
 - Developed a web-based calculator using HTML, CSS, and JavaScript, enabling basic arithmetic operations and a user-friendly interface.
- Weather App**

Technologies Used: HTML, CSS, JavaScript

 - Designed and developed a responsive weather application that provides real-time weather updates.
 - Implemented API integration to fetch live weather data and display key details like temperature, humidity, and forecast.
 - Applied JavaScript for dynamic content updates and enhanced user experience.
 - Utilized CSS for an intuitive and visually appealing UI.
 - Ensured cross-browser compatibility and responsiveness across different devices.
- Movie Browsing Website**
 - Designed and developed an interactive movie browsing website using HTML, CSS, and JavaScript.
 - Implemented responsive web design to ensure optimal user experience across devices.
 - Utilized JavaScript for dynamic content rendering and interactive features, such as search filters and movie detail pop-ups
